|---------------------------------------------------------------------------|-----------|
| <b>Introduction</b> . . . . .                                             | <b>7</b>  |
| <b>1. Quality of services</b> . . . . .                                   | <b>9</b>  |
| 1.1. Introduction . . . . .                                               | 9         |
| 1.2. Quality and customers' quality expectations . . . . .                | 9         |
| Performance to meet standards (Design quality). . . . .                   | 10        |
| Performance to meet the customer's needs (Functional quality) . . . . .   | 11        |
| Value for price paid . . . . .                                            | 11        |
| Quality of support services . . . . .                                     | 11        |
| 1.3. Definition of services . . . . .                                     | 12        |
| 1.4. Managing quality in services . . . . .                               | 14        |
| 1.5. Service Quality map . . . . .                                        | 16        |
| 1.6. Employees and clients as determinants of service quality . . . . .   | 17        |
| 1.7. Cost of quality . . . . .                                            | 19        |
| 1.8. Quality and its influence on the company's competitiveness . . . . . | 21        |
| 1.9. Conclusions. . . . .                                                 | 22        |
| <b>2. Evolution of quality issues.</b> . . . .                            | <b>25</b> |
| 2.1. Introduction . . . . .                                               | 25        |
| 2.2. The evolution of the idea of quality . . . . .                       | 25        |
| 2.3. Walter A. Shewhart . . . . .                                         | 26        |
| 2.4. William Edwards Deming. . . . .                                      | 26        |
| 2.5. Joseph M. Juran . . . . .                                            | 28        |
| 2.6. Armand V. Feigenbaum . . . . .                                       | 30        |
| 2.7. Philip B. Crosby . . . . .                                           | 31        |
| 2.8. Kaoru Ishikawa. . . . .                                              | 33        |
| 2.9. Genichi Taguchi . . . . .                                            | 35        |
| 2.10. Conclusions . . . . .                                               | 37        |
| <b>3. Basic concepts of Total Quality Management</b> . . . . .            | <b>39</b> |
| 3.1. Introduction . . . . .                                               | 39        |
| 3.2. From Inspection to Total Quality Management . . . . .                | 39        |

|                                                                     |           |
|---------------------------------------------------------------------|-----------|
| Inspection . . . . .                                                | 40        |
| Quality Control . . . . .                                           | 40        |
| Quality Assurance . . . . .                                         | 40        |
| Total Quality Management . . . . .                                  | 41        |
| 3.3. The idea of Total Quality Management . . . . .                 | 41        |
| 3.4. Core elements and ideas of TQM . . . . .                       | 43        |
| 3.4.1. People . . . . .                                             | 44        |
| 3.4.2. Continuous Improvement . . . . .                             | 46        |
| The plan-do-study-act cycle . . . . .                               | 47        |
| 3.4.3. Processes. . . . .                                           | 52        |
| 3.4.4. Quality Tools, techniques and systems . . . . .              | 52        |
| 3.4.5. Role of managers in TQM . . . . .                            | 53        |
| 3.4.6. Company Culture. . . . .                                     | 53        |
| 3.5.Implementing TQM in the service sector . . . . .                | 54        |
| Defining quality . . . . .                                          | 55        |
| Identifying customers . . . . .                                     | 56        |
| Measuring Quality. . . . .                                          | 56        |
| Implementing Quality Strategy. . . . .                              | 57        |
