List of Figures and Tables

Figures

| | | |
|-----|---------------------------------------------------------------------------|-----|
| 0.1 | The Vitae Researcher Development Framework | xii |
| 1.1 | The basic four stages in producing a review of the literature | 4 |
| 1.2 | The generation and communication of research knowledge and information | 14 |
| 1.3 | The hierarchy of questions when reviewing | 21 |
| 1.4 | Identifying relevant items through bibliographic analysis | 25 |
| 2.1 | Managing information from a literature review | 44 |
| 2.2 | Skills, capabilities, attitudes and qualities of the masters | 46 |
| 2.3 | Map of associations in definitions of originality | 49 |
| 3.1 | Elements for analysing the reasoning in research | 79 |
| 4.1 | Flow of studies for a systematic review of plain tobacco packaging | 103 |
| 5.1 | Toulmin's structure of an argument | 130 |
| 5.2 | An argument for saving water | 131 |
| 6.1 | Evidence, argumentation, practice and critical thinking | 157 |
| 6.2 | Masters et al.'s (2006:24) forest plot | 169 |
| 6.3 | An example of meta-analysis (binary outcome measures) (Ried, 2006) | 170 |
| 6.4 | An example of meta-analysis (continuous outcome measures) (Ried, 2006) | 171 |
| 6.5 | The place of middle range theory in research | 184 |
| 7.1 | Example literature on metaphor mapped | 207 |
| 7.2 | Identifying locations for comparison | 220 |
| 8.1 | A relationship map of a feminist analysis of advertisements for fragrance | 247 |
| 8.2 | A subject relevance tree for the social science treatment of advertising | 250 |

| | | |
|------|------------------------------------------------------------------------------------------------------------------------|-----|
| 8.3 | An example of a linear relationship map: The logic of assumptions about advertising | 251 |
| 8.4 | Partial classification of qualitative research | 253 |
| 8.5 | Merton's paradigm of possible responses | 254 |
| 8.6 | Semantic map of critical approaches in cultural studies | 255 |
| 8.7 | Concept map (mind map): The context of research | 256 |
| 8.8 | Garfield's strategy for mapping the development of DNA-code theory and verification | 273 |
| 8.9 | Network diagram of DNA development and verification according to Asimov, 1963 | 274 |
| 8.10 | Network diagram of how DNA was developed and verified according to citation analysis of connections among nodal papers | 275 |
| 9.1 | Thinking about starting to write | 302 |

Tables

| | | |
|-----|---------------------------------------------------------------------|-----|
| 1.1 | Some sections in a research proposal | 11 |
| 2.1 | Purpose of a review in different types of research | 38 |
| 2.2 | The role of the review in different kinds of publication | 39 |
| 2.3 | Degrees and the nature of the literature review | 41 |
| 2.4 | Assessing the literature review in a thesis | 57 |
| 2.5 | Criteria for assessing a Master's dissertation | 60 |
| 3.1 | Types of research | 66 |
| 3.2 | The goals of different types of research | 67 |
| 3.3 | Design issues and options in research | 70 |
| 3.4 | The information components to extract when reading | 76 |
| 3.5 | Comparison of three paradigms that influence research | 80 |
| 3.6 | Initial evaluations of qualitative studies | 83 |
| 3.7 | Initial evaluation of quantitative studies | 83 |
| 4.1 | The two main types of literature review and their audiences | 93 |
| 4.2 | Dimensions of difference | 98 |
| 4.3 | Different types of review for social science policy research | 101 |
| 4.4 | Example systematic reviews available from EPPI | 102 |
| 4.5 | The research stages in conducting a literature review | 111 |
| 4.6 | Stages and processes for two types of qualitative literature review | 112 |
| 4.7 | Evidence and review type in different policy areas | 114 |
| 4.8 | Criteria and non-criteria research methods | 116 |

| | | |
|-----|-----------------------------------------------------------------------------------------|-----|
| 5.1 | Definitions: Inference, assertion and supposition | 121 |
| 5.2 | The principles of the scientific method | 124 |
| 5.3 | Issues for research design | 127 |
| 5.4 | Different types of claim | 131 |
| 5.5 | Analysing Marx: Worked example | 139 |
| 5.6 | Marx's methodological assumptions and Weston's assertions compared | 142 |
| 5.7 | Fallacies common in arguments | 143 |
| 6.1 | Methods and their applicability to provide an increasing degree of certitude | 160 |
| 6.2 | Ontology, causation, evidence and the literature review | 163 |
| 6.3 | Effects of intercessory prayer summarised across studies (Masters, 2006: 24) | 168 |
| 6.4 | Successionist and generative inclusion and exclusion criteria protocols compared | 175 |
| 6.5 | Uses of Roy's (1976; 1988) Adaptation model to develop middle range theories in nursing | 185 |
| 6.6 | Stages in the realist review of a programme literature | 187 |
| 7.1 | Analysis, synthesis, knowledge and comprehension | 198 |
| 7.2 | Educational perspectives and associated metaphors | 207 |
| 7.3 | Focal nodes of a definition | 210 |
| 7.4 | An etymological summary of the concept 'community' 1880–1990 | 213 |
| 8.1 | Identifying relevant studies based on categories | 237 |
| 8.2 | Minimum necessary details to be included in a grid | 240 |
| 8.3 | Size A3 summary record sheet (reduced) | 243 |
| 8.4 | Example of a worksheet map | 243 |
| 8.5 | Extract from a feminist analysis of fragrance advertisements | 245 |
| 8.6 | Using the literature to make recommendations | 248 |
| 8.7 | Template for variable matrix | 249 |
| 8.8 | Four sources for finding citations compared | 266 |
| 8.9 | Extract of studies reviewed by Hoffmann and Doucette (2012) | 269 |
| 9.1 | Some problems, reasons and solutions to writing | 300 |
| 9.2 | Three structures for making your case | 303 |
| 9.3 | The analytical pattern applied to <i>Suicide</i> | 304 |
| 9.4 | Deductive writing structure | 307 |
| 9.5 | Inductive writing structure | 307 |
| 9.6 | Information and interest support | 311 |
| 9.7 | Five main components of an introduction | 311 |
