

## Table of contents

INTRODUCTION .....	7
1. BASIC CONCEPTS (A.H. Jasinski) .....	9
2. INNOVATION PERFORMANCE AND ECONOMIC GROWTH (A.H. Jasinski) .....	19
2.1. How is innovation in Central and Eastern Europe perceived by foreign researchers? .....	19
2.2. Innovation performance in Poland, 1989-2007 .....	22
2.3. Heritage of the past .....	24
2.4. Does innovation depend on economic growth? .....	27
Appendix. Principal components analysis: A brief methodology .....	36
3. TECHNOLOGY, TALENT AND TOLERANCE (3TS) AND ECONOMIC DEVELOPMENT (K. Klinecicz) .....	39
3.1. Introduction .....	39
3.2. Human and social capital .....	41
3.3. Theory of corporate agglomerations .....	43
3.4. Creative class in the world and in Poland .....	44
3.5. Research methods and results .....	48
4. THE PROCESS OF TECHNOLOGICAL CATCH-UP (R. Ciborowski) .....	59
4.1. Factors of differences in technological changes .....	59
4.2. Poland's technological catch-up conditions .....	63
4.3. Directions and range of technological catch-up in open economy .....	67
5. TECHNOLOGICAL COMPETITIVENESS OF THE NATIONAL ECONOMY (R. Ciborowski) .....	75
5.1. Introduction .....	75
5.2. Global conditions for technology development .....	75
5.3. Technological expansion capabilities .....	78
5.4. Globalisation tendencies and their influence on competitiveness .....	81
6. TECHNOLOGY-TRANSFER PROCESSES AND BARRIERS (A.H. Jasinski) .....	87
6.1. The state of technology-transfer processes .....	87
6.2. Barriers for technology transfer: A brief survey of literature .....	91
6.3. Methods of empirical research .....	92
6.4. General conclusions and recommendations .....	97

7.	THE BLUE LASER PROJECT: CHALLENGES FOR TECHNOLOGY TRANSFER IN POLAND (K. Klincewicz) .....	101
	7.1. Introduction .....	101
	7.2. Lasers and their applications .....	102
	7.3. Emergence of blue semiconductor lasers .....	104
	7.4. Blue lasers based on gallium nitride .....	104
	7.5. Maturity of the blue laser technology .....	106
	7.6. Development of the Polish blue laser .....	108
	7.7. Lessons learned from the Polish experience .....	111
8.	THE ROLE OF MARKETING IN INNOVATION SUCCESS (M. Kruk) .....	118
	8.1. Success factors of new products .....	118
	8.2. Market orientation in new product projects .....	123
	8.3. Application of marketing tools in the commercialisation stage .....	126
9.	SCIENCE COMMUNICATION WITH SOCIETY: A MARKETING APPROACH (A.H. Jasinski) .....	137
	9.1. Introduction .....	137
	9.2. Public relations as an element of marketing communication .....	139
	9.3. A desired role of public relations .....	142
10.	INNOVATION POLICY IN TRANSITION (A.H. Jasinski) .....	145
	10.1. Introduction .....	145
	10.2. Innovation policy after the first turning point .....	148
	10.3. Innovation policy after the second turning point .....	152
	10.4. Has innovation policy had an influence on innovation? .....	154
	10.5. Policy recommendations and lessons for other countries .....	155
