Introduction	5
Chapter I – Integrated risk management: basic concepts	7
1. Definitions and types of risk	8
2. Risk management and integrated risk management	12
3. Integrated management systems	15
4. Risk ownership and responsibilities	17
5. Risk assessment	19
6. Risk response planning	21
Summary	23
Chapter II – Integrated Risk Management Standards	25
1. AS/NZS approach to integrated risk management	25
1.1. Background and applicability	25
1.2. Applying the method	26
Summary	35
2. ISO approach to integrated risk management standard	35
2.1. Background and applicability	35
2.2. Applying the method	36
Summary	42
3. FERMA approach to integrated risk management	42
3.1. Background and applicability	42
3.2. Applying the method	43
Summary	48
4. COSO approach to integrated risk management	49
4.1. Background and applicability	49
4.2. Applying the method	49
Summary	52
Annex: Comparison of various Risk Management Standards	53

Chapter III –Selected techniques and methods of risk identification and analysis. 59

1. Introduction 59

2. Interviews. 60

3. Brainstorming 61

4. Analogy comparisons 61

5. Delphi technique. 62

6. Checklists 62

7. Crawford Slip Method. 63

8. Hazard and operability study - HAZOP. 64

9. Hazard analysis and critical control points - HACCP 64

10. Consequence/probability matrix 64

11. Cost/benefit analysis 65
