

# Contents

- Preface** ..... 5
  - Acknowledgement..... 5
  
- 1. Business Information Systems** ..... 7
  - The functions of Information Systems ..... 7
  - The Types of Information Systems ..... 8
  - Developing Information Systems ..... 9
  - Modeling Information Systems ..... 12
  
- 2. Function Modeling with Function Hierarchy** ..... 13
  - The Concept of a Function..... 13
  - Function hierarchy diagram ..... 13
  - Drawing FH diagram ..... 14
  
- 3. Function Modeling with Data Flow Diagrams** ..... 19
  - Data Flow Diagram..... 19
  - Building a functional model with DFD ..... 22
  
- 4. Data modeling with Entity Relationship Diagrams** ..... 27
  - Entity Relationship Diagram ..... 27
  - Entities ..... 27
  - Relationships ..... 28
  - The Review of a Data Model ..... 31
  
- 5. Using Microsoft Visio** ..... 33
  - Diagramming software..... 33
  - Microsoft Visio diagrams..... 33
  - Drawing data flow diagrams ..... 35
  - Data modeling..... 38
  - Preparing documentation ..... 40
  
- 6. Relational Databases** ..... 43
  - The Purpose of a Database..... 43
  - Relational Data Model ..... 43
  - Converting ERD into Relational Data Model ..... 45

<b>7. Using Microsoft Access</b> .....	<b>47</b>
Database Management System .....	47
Microsoft Access in MSDNAA Program .....	47
Creating a New Database .....	48
Creating Data Forms .....	59
Designing queries .....	62
Creating Reports .....	70
<b>References</b> .....	<b>75</b>
